By deleting all of the language after the enacting clause and by substituting instead the following:

SECTION 1. Tennessee Code Annotated, Section 68-9-201 is amended by designating the existing section as subsection (a) and adding a new subsection (b) as follows:

(b) State, district, municipal and county health officers involved in tuberculosis control and elimination shall notify appropriate health authorities of jurisdictions in the appropriate states, territories, and municipalities when an individual with confirmed or clinically diagnosed infectious tuberculosis or currently under treatment for tuberculosis disease relocates from Tennessee into another jurisdiction, such notification being subject to approval of the state health officer or his designee. Notwithstanding any provision of law to the contrary, the commissioner of health is authorized to notify the appropriate tuberculosis infection control staff of this or another state of an individual's tuberculosis infection for the sole purpose of containing a potential threat to the public health and welfare or to assure completion of proper treatment of the diseased person. All persons who receive notification of the infectious condition of an individual under this subsection shall hold such information in the strictest confidence and shall not reveal the information to others. A person making such disclosure by providing patient identifying information and medical information related to the patient's tuberculosis status is immune from liability for making disclosure of information for the purpose of preventing the further spread of disease and assuring completion of proper treatment of the diseased person.

House Government Operations Committee

Amendment No. 1 to SB3102
